A+ MAGAZINE PROGRAM AND UTILITIES DISK GETTING STARTED

This A+ Disk is a collection of 17 business, educational, entertainment, and utility programs on the front and back sides of the diskette. For your convenience we have included instructions and a brief description of how each program operates, on the diskette.

Most of these programs were written in Applead BASIC. Many of the programs include Assembly Language softendines but are loaded into the computers memory. The program descriptions indicate which lets are useful or each program. Because some programs write to the disk, it is a good itsel to make a copy of each side of the disk. (You can copy the front and back sides onto a shaple disk, but you will need to cut a notch on the left side of the disk, so the computer can write on both sides of the disk.

When you start the computer with the A+ Disk in your disk drive, the computer automatically runs a program named A+HELLO that shows the A+ logo, and after you press the Space Bar, will display the main

menu. Select the program you would like the computer to run.

After quitting or exiting from a program, the computer does not automatically display the main menu again but usably leaves you in Applesoft BASIC, indicated by the] and curson: To display the main menu again, either restart the computer by holding down the Control key and pressing the Reset key or type RUN A+HELLO and press the Bottum lew.

The program descriptions are formatted for 40 columns with uppercase and lowercase letters. If your Apple does not display lowercase just print the documentation. (After you choose INSTRUCTIONS from the main menu, the program assiss if you want to send the text to the printer) The program assimes you have a printer in slot 1.

If you are interested in contributing brief, but illustrative programs in the chose of the include for the //OS pleases send us the program on a disk, or call us and tell us what you have in mind. If you have an ingenious routine, a special technique, or an easter egg (unusual commands embedded inside a program that cause secret things to hape pert), please sendy over tip to A + Magazine, Tips and Techniques, II Davis Drive, Belmont, CA 4002. If we publish your tip, you'll receive credit, and we'll nav you 825 via.

Chip Carman, Technical Editor

A+ MAGAZINE PROGRAM AND UTILITIES DISK TERMS AND CONDITIONS

This disk contains programs from A+ Disk Magazine, A+ Magazine, and is prepared as a service to readers of A+ Magazine. In the unlikely event that the disk is defective in manufacture, return it within 30 days of receipt to A+ Magazine, Circulation Department. One Park Avenue, 4th floor, IV NY 10016.

The publisher makes no warranty concerning the function or fitness of any program reproduced on the disk, and shall have no liability or responsibility to any recipient with respect to any liability, loss or damage directly or indirectly arising out of the use of the disk and the programs contained on the disk, including, but not limited to, any loss of business or other incidental or consequential damages.

Copyright Ziff-Davis Publishing Company, 1987. All rights reserved. All rights of reproduction in other media reserved.

Thank you for your subscription to the #1 Apple II magazine! We're sure that you'll find the games, utilities and programs to be valuable additions to your software library.

Welcome!

Logo Design Master: UP AND RUNNING

For Apple Logo use the word LOAD to enter your Logo commands.

For Terrapin or Krell Logo use the word READ to enter your commands.

Otherwise the following UP AND RUNNING instructions for loading Logo Design Master are identical.

- Insert the Logo diskette into the disk drive
 Turn on the computer
- After the Logo language has been loaded, remove the Logo diskette
- . Insert the Logo Design Master and press (return)

To load LOGODRAW type:

(Apple Logo) LOAD "LOGODRAW (return)
(Terrapin/Krell) READ "LOGODRAW (return)
Then type: MASTER (return)

The computer will now load a set of Logo procedures from the Logo Design Master diskette. These procedures allow you by:

- Use the KoalaPad to draw pictures that are automatically translated into Logo procedures
- Use these procedures with your own Logo programs or with LOGOMASTER.

To load LOGOMASTER type:

(Apple Logo) LOAD "LOGOMASTER (return) (Terrapin/Krell) READ "LOGOMASTER (return)

The computer will now load a set of Logo procedures from the Logo Design Master diskette. These procedures allow you to:

- Use the KoalaPad to create pictures with template procedures
- Generate the Logo program to redraw pictures

Once the LOGOMASTER files have been loaded, you will also need to load a set of Logo picture procedures. To use the set that comes with Logo Design Master enter.

(Apple Logo) LOAD "SCENEPROCS (return)
(Terrapin/Krell) READ "SCENEPROCS (return)
Then type: MASTER (return)

The computer will now load another set of Logo procedures that have a sample template with which you can experiment.

For extended media life here's how to take care of your flexible disk
